VENGEANCE
Electronic Game Call

User's Manual

Model # FLX100

INSTALLING BATTERIES

1 Turn the call on its side and place thumb on the cover while pressing down and sliding open.

2 Next, pull out the battery chamber, confirm that the positive (+) and negative (-) terminals are oriented correctly as described on the label at the entrance and insert the AA batteries.

3 To close put battery chamber back inside cavity, put the cover over and press in. Press the door snap after battery door installment to ensure door snap engagement.

INSTALLING BATTERIES IN REMOTE

1 To install the AAA batteries for the remote, push down on the button and slide open the cover.

3 To close, place the cover over and press down. Press the door snap after battery door installment to ensure door snap engagement.

2 Next, confirm that the positive (+) and negative (-) terminals are oriented correctly as described on the label at the entrance and insert the batteries.

TURNING UNIT ON

Press and hold the power button until LCD is illuminated and then release. Unit is now on. **Note:** THE LCD will enter sleep mode in approximately 40 seconds of inactivity

CHOOSING CALL CATEGORY

1 First, select desired call category by pressing and releasing the middle button. Category name should now be blinking.

2 Next, press either the left or right button to view the categories.

3 When desired category is identified, press and release middle button.

CHOOSING INDIVIDUAL CALLS

After the category has been chosen, scroll left or right to view individual calls within the category.

TO USE CALL

Once the desired call is identified, press the play button to activate the speaker. This will activate the audible call. To maximize the effectiveness of the Vengeance, point the call in the direction you want the call to go to. Note: Call will loop repeatedly until call is deactivated. DO NOT PRESS ENTER BUTTON TO ACTIVATE CALL.

VOLUME CONTROL

To adjust volume, press the volume up or down buttons.

To adjust sound from left speaker to right speaker, press top left button.

TURN UNIT OFF

Press and hold the power button until LCD is illuminated and then release. Unit is now off.

Note: THE LCD will enter sleep mode in approximately 40 seconds of inactivity. The unit will off if no any sound output for 15 minutes.

TURNING REMOTE ON

Press and hold the power button until LCD is illuminated and then release. Unit is now on.
Note: THE LCD will enter sleep mode in approximately 40 seconds of inactivity.

CHOOSING CALL CATEGORY

1 First, select desired call category by pressing and releasing the middle button. Category name should now be blinking.

2 Next, press either the left or right button to view the categories. When desired category is identified, press and release middle button.

CHOOSING INDIVIDUAL CALLS

After the category has been chosen, scroll left or right to view individual calls within the category.

Female

If you are in need of customer service for missing parts or need assistance with the operation or assembly of your product, we encourage you to call one of our customer service representatives and let us assist you with your WGI Innovations™ product.

DISCLAIMER

WGI Innovations, LTD. reserves the right to make changes to product features, functionality and physical design at its sole discretion. As a result, such changes may not be reflected in this version of the manual.

FCC STATEMENT

Product Name: Electronic Game Call

Trade Name: Flextone

Model# FLX100

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two criteria: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

INDUSTRY CANADA CERTIFICATION

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class [B] digital apparatus complies with Canadian ICES-003.
